

Message from the Secretary

We are pleased to present you the first issue of the G.C.I.R.C. - Bulletin, which has been renewed in its form and presentation :

- with a more modern cover, which, we hope, is also more attractive,
- essential information concerning the life of the G.C.I.R.C.,
- the correspondents' communications from each country, as well as the papers presented by the research-workers,
- and a bibliography.

Since it was decided to increase the time-intervals between our technical and scientific meetings, the Bulletin has become necessary to maintain information-exchanges on rapeseed-cropping all over the world and on research-advance.

The future interest of this Bulletin lies in these exchanges. All the readers of this Bulletin are therefore invited to send original texts or comments on rapeseed and related research in their countries to the members of the Drafting Committee or the Secretariat of the G.C.I.R.C.

The Secretary
E. Choné
