Pest Management Science

SCI where science meets business

wileyonlinelibrary.com/journal/ps

Aims & Scope

Pest Management Science (formerly *Pesticide Science*) is an international journal of research and technology on crop protection and pest control. Since its launch in 1970, the journal has become the premier forum for papers covering all aspects of research and development, application, use and impact on the environment of products designed for pest control and crop protection.

Topics covered by the journal include:

- Applications for biotechnology and molecular biology relevant to pest management
- Biological control, biopesticides and integrated pest management (IPM)
- Resistance of pests to pest management products and strategies
- Synthesis, discovery, screening, structure/activity and biochemical mode of action of insecticides, herbicides, fungicides and other pesticides
- Properties and use of new pest management products and strategies
- Formulation and application methods for pest management products
- Metabolism, degradation, field performance, environmental studies and safety in use of new and existing pest management products
- Naturally occurring materials for pest management
- Genetic and ecological implications of pest management products and methods
- Protection of commodities from pests
- Toxicology, risk assessment and regulation of pest management products and methods
- Economic impact of pest management products and methods
- Research papers on products of uncertain chemical composition (e.g. crude extracts, formulations with incomplete chemical descriptions) or unknown or unclear active ingredients are not accepted for review.

The journal may publish papers from scientific meetings of the SCI Agrisciences Group and from other selected international conferences.

Information for subscribers

Pest Management Science (Print ISSN 1526-498X; Online ISSN 1526-4998) is published Monthly.

Institutional subscription prices for 2026 are: Print & Online: US$5481 (US and Rest of World), €3543 (Europe), £2804 (UK). Prices are exclusive of tax. Asia-Pacific GST, Canadian GST/HST and European VAT will be applied at the appropriate rates. For more information on current tax rates, please go to https://onlinelibrary.wiley.com/library-info/products/price-list/payment. The institutional price includes online access to the current and all online back files to for previous 5 years, where available. For other pricing options, including access information and terms and conditions, please visit https://onlinelibrary.wiley.com/library-info/products/price-lists. Terms of use can be found here: https://onlinelibrary.wiley.com/library-info/products/price-lists/title-by-title-terms-and-conditions.

Prices for individuals are available on request.

Special discounted subscriptions available for SCI members. For details please contact Member Services, SCI, 14/15 Belgrave Square, London SW1X 8PS, UK. Tel: +44 (0)20 7598 1500, Fax: +44 (0)20 7823 1698, E-mail: members@soci.org.

For submission instructions, subscription and all other information visit: wileyonlinelibrary.com/journal/ps

Delivery Terms and Legal Title

Where the subscription price includes print issues and delivery is to the recipient's address, delivery terms are **Delivered at Place (DAP)**; the recipient is responsible for paying any import duty or taxes. Title to all issues transfers Free of Board (FOB) our shipping point, freight prepaid.

Claims for Missing or Damaged Print Issues

Our policy is to replace missing or damaged copies within our reasonable discretion, subject to print issue availability, and subject to the terms found at Section V, Part C at https://onlinelibrary.wiley.com/library-info/products/price-lists/title-by-title-terms-and-conditions#print-subscriptions.

TO SUBSCRIBE PLEASE CONTACT:

Journal Customer Services: For ordering information, claims and any enquiry concerning your journal subscription, please either: **Visit** our Online Customer Help at https://wolsupport.wiley.com/s/contactsupport **Email** cs-journals@wiley.com (cs-germany@wiley.com for support in German or cs-japan@wiley.com for support in Japanese) **Call** your nearest office. Telephone numbers available at https://wolsupport.wiley.com/s/contactsupport

For a full list of frequently asked questions, please visit https://wolsupport.wiley.com/s/

Back issues: Single issues from current and recent volumes are available at the current single issue price from cs-journals@wiley.com. Earlier issues may be obtained from https://wolsupport.wiley.com/s/article/purchasing-single-issues-or-back-volumes.

SAMPLE COPIES may be obtained at our website wileyonlinelibrary.com/ps

Corporate Responsibility & ESG

ESG (Environmental, Social, Governance) is essential to Wiley's mission of unlocking human potential. For over two centuries, Wiley has a history of helping the world's researchers, learners, innovators, and leaders achieve their goals and solve the world's most important challenges. We take our role as a corporate citizen seriously and are guided by transparency, accountability, and industry best practices. Through intentional climate action and strategic social impact, ESG advances Wiley's commitment to sustainability, positive impact, and leading global change. Follow our progress at https://www.wiley.com/en-us/corporate-responsibility.

WILEY Online Library

Research4Life

Wiley is a founding member of the UN-backed HINARI, AGORA, and OARE initiatives.

They are now collectively known a Research4Life, making online scientific content available free or at nominal cost to researchers in developing countries and enabling more researchers to publish open access by providing publisher backed waivers and discounts. Please visit Wiley's Content Access–Corporate Citizenship site: https://www.wiley.com/en-us/corporate-responsibility.

Volume 82 Issue No 11 November 2026
wileyonlinelibrary.com/journal/ps

Special Issue: Next-Generation Integrated Pest Management in Oilseed Rape & Canola

Editorial

Dedication: Ingrid H. Williams (1947–2025) **10527**

Next-Generation Integrated Pest Management in Oilseed Rape and Canola: can new approaches solve the age-old problem of IPM delivery? **10528**
SM Cook, KM King (UK), M Rostás (Germany) and M Jędryczka (Poland)

Perspective

Transport engineering as a strategy to realize rapeseed's potential as a protein-rich food **10534**
JS Thorsen, D Xu and BA Halkier (Denmark)

Improved impact from the use of beneficial natural enemy species in Australian canola systems: challenges and required tools **10540**
S Macfadyen, B Al-Jalely, M Chalise, M Ehsangar, Z Duric, J Holloway, A Hulthen, P Mavende, P Melloy, S Micic, H Parry, SC Sarkar, J Thurman, M Van Helden, X Wang and W Xu (Australia)

Review

Behavioural manipulation of the cabbage stem flea beetle (*Psylliodes chrysocephala* L): Prospects for push–pull strategies in oilseed rape **10551**
S Mustapha, PA Ortega-Ramos, J Vuts, TM Butt, EJ Loveridge (UK), D Rüde (Germany) and SM Cook (UK)

Insect pests in *Brassica napus* crops: toward ecologically optimized integrated pest management **10561**
JA Avellaneda Nieto, W Xu and SC Sarkar (Australia)

Disease control in oilseed rape: Current insights and perspectives for next-generation integrated pest management **10572**
JS West (UK), M Jędryczka (Poland) and N Zamani-Noor (Germany)

Research Article

Target-site mutations and phenotypic failure in *Myzus persicae* against pyrethroids and carbamates in central Europe **10590**
J Stara, J Hubert, P Pabiskova and F Kocourek (Czechia)

RNA degradomics and proteomics reveal the mechanism of dsProsβ1-mediated proteasome targeting in *Psylliodes chrysocephala* **10604**
D Cedden, G Güney, M Rostás and S Scholten (Germany)

Contents continued overleaf

15264998, 2026, 11, Downloaded from https://scijournals.onlinelibrary.wiley.com/doi/10.1002/ps.71412 by Cochrane France, Wiley Online Library on [13/11/2026]. Pest Management Science

wileyonlinelibrary.com/journal/ps

Contents continued

Synthetic polymer nanocarrier enhances dsRNA stability but not RNAi efficacy in *Brassicogethes aeneus* **10615**
T Kallavus (Estonia, Belgium), L Soonvald (Estonia), I Callewaert (Belgium), AI Silva (USA), E Ávila Dos Santos (Belgium), S Vilumets, R Kaasik (Estonia), S Vereecken, L Van Daele, P Dubruel (Belgium), J Willow (USA), CNT Taning, K De Schutter (Belgium) and E Veromann (Estonia)

Effects of bioinsecticide exposure route on aphids and their natural enemies in oilseed rape **10625**
AJ Tonks, TW Pope, S Cooper and JM Roberts (UK)

SYN-A, a naturally derived synergist, restores pyrethroid efficacy against cabbage stem flea beetle but negatively impacts its parasitoid *Microctonus brassicae* **10637**
PA Ortega-Ramos, GD Moores and SM Cook (UK)

Combined effects of canola plant density and insecticide management strategies on flea beetle abundance, canola defoliation, and yield across the Canadian prairies **10648**
S Woodland, HA Cárcamo, T Wist, J Otani, J Gavloski, RW Duncan, T Nagalingam and AC Costamagna (Canada)

Community composition, abundance and activity-density of carabids and staphylinids depend on prey abundance and adjacent habitat even in diverse agricultural landscapes **10658**
R Kaasik, S Vilumets, K Treier, U Roosileht (Estonia), JM Holland (UK) and E Veromann (Estonia)

Epidemiological drivers of turnip yellows virus and its vector *Myzus persicae* in Australian canola (*Brassica napus*) systems: a 3-year study of commercial crops and noncrop vegetation **10671**
SE Edley, OR Edwards, BS Congdon, JG Black, M Babineau, AR van Rooyen, A Slavenko, RAC Jones, AR Weeks and PA Umina (Australia)

Assessing the potential of turnip rape and radish cover crops as trap crops for *Psylliodes chrysocephala* in commercial field production conditions **10683**
A Boulay, A Gardarin, A Morisseau, B Labbe and I Le Masson (France)

Intercropping mitigates incidence of the oilseed rape insect pest complex **10695**
L Magnin (Switzerland, France), I Hiltpold (Switzerland), A Jullien (France) and A Baux (Switzerland)

Intercropping with legumes can reduce insect pest pressure but does not increase yield in winter oilseed rape (*Brassica napus* L.) **10705**
CA Raderschall, O Lundin, IR Chongtham, A-C Wallenhammar, P Anderson, G Carlsson and MC Larsson (Sweden)

Field investigation of glucosinolates and morphological traits in mitigating *Psylliodes chrysocephala* larval infestation through crop varieties and companion planting **10716**
L Magnin (Switzerland, France), A Jullien (France), A Baux (Switzerland), C Barbu (France), G Glauser and I Hiltpold (Switzerland)

Seedling resistance and chemical defenses against *Psylliodes chrysocephala*: the roles of seed age and sinapinic acid in *Sinapis alba* and *Brassica napus* **10727**
D Rüde (Germany), SM Cook (UK), B Ulber, T Pöhnl and M Rostás (Germany)

Larval antibiosis to cabbage stem flea beetle (*Psylliodes chrysocephala*) is absent within oilseed rape (*Brassica napus*) **10739**
RE Brock (UK, Germany), C Courtney, S Penfield and R Wells (UK)
